

**Contract Catering
with Chartwells**

— **Chartwells Promise** —

♥ **HEALTHY SCHOOLS** ♥
HEALTHY PUPILS

WE'RE HERE TO HELP

With at least 11 years of their life spent at school, Chartwells & school staff have a unique opportunity to influence pupil's health and wellbeing habits early on. 1 in 3 children leave primary school overweight or obese, and in secondary schools, physical activity levels drop, and nutritional guidance is less likely to be followed.

Chartwells are here to support your pupils, encourage healthy eating and enable your school to achieve a Healthy Schools Rating!

Read more to find out how!

What is Chartwells Promise?

**Chartwells
PROMISE**

Advise your school of the services available to you, through Chartwells.

Support your school in evidencing areas which meet the Department for Education's Healthy Schools Rating Scheme (HSRS) Criteria.

Support your pupils' health & wellbeing, through the food and education offer.

This document will contain evidence of the following;

- ✓ **1.1** The School's Caterer provides a healthy school lunch offer
- ✓ **1.2** The School and its Caterer will provide information on meals served outside of lunchtime
- ✓ **1.3** The School's Caterer meets Public Health England nutrient targets and falls in line with up to date nutrition criteria
- ✓ **1.4** The School's Caterer attains external recognition for school menus and achievements beyond the kitchen
- ✓ **1.5** The School and its Caterer manages allergens and medical diets safely
- ✓ **1.5a** The Schools Caterer will comply with the provision of food information to consumers, managing allergens safely from the school kitchen
- ✓ **1.5b** Catering for medical diets
- ✓ **1.5c** Medical diet policy and training for kitchen teams
- ✓ **1.6** The School and its Caterer will include work associated with healthy balanced diets in its curriculum
- ✓ **1.7** The School and its Caterer will extend support to parents by educating them on healthy eating principles

We hope you enjoy reading and using this document. If you have any further questions, please don't hesitate to contact one of us at Chartwells.

The Chartwells Team.

**Chartwells
PROMISE**

I. Overarching Aim

- ✓ To ensure that all aspects of food and drink promote the health and well-being of pupils, staff and visitors to your school.
- ✓ Supporting pupils' learning, development and attainment through nutrition education, healthy eating and cooking.

I.1 The School's Caterer provides a healthy school lunch offer

Chartwells school menus are compliant with the School Food Standards as set out in the School Food Plan and follow the plans recommended portion size guidelines for primary and secondary aged pupils.

Our recipes & menus are developed in line with current UK healthy eating guidelines and closely follow the principles set out within the Eatwell Guide, which was released in March 2016. The Food for Life catering mark provides independent endorsement that Chartwells are meeting the School Food Standards and serving food prepared from fresh, sustainable and locally sourced ingredients. Many of Chartwells menus comply with these high standards (Bronze, Silver or Gold), supporting schools to impact both pupils and the wider community.

As an alternative to the tasty cooked meals available, Chartwells can also provide a packed lunch offer to the pupils at your school. Chartwells packed lunch menu has been developed in line with government standards and provides;

- ✓ One dairy item on the menu every day to contribute towards calcium levels supporting bones and teeth
- ✓ Two different types of fruits and vegetables contributing towards 5-a-Day
- ✓ A vegetarian (V) option is available daily
- ✓ Only wholegrain bread or 50/50 is used for sandwiches or wraps
- ✓ No confectionary, fried snacks or fizzy drinks are included in packed lunches

Meeting Food Standards Criteria

The menus that Chartwells provide to your schools are signed off by a member of our nutrition team using a tracker, ensuring that they meet each of the School Food Standards criteria (See Appendix I.)

1.2 The School and its Caterer will provide information on meals served outside of lunchtime

The food-based standards apply to food served throughout the school day, including breakfast, mid-morning break and after school clubs, as well as from vending machines and tuck shops.

Breakfast

Breakfast helps to kick-start the day, improve energy levels and can provide beneficial nutrients to stabilise blood sugar levels.

Mid-Morning Break Snack

A mid-morning break snack ensures pupils can sustain energy levels throughout the morning and retain concentration in class ahead of lunch time.

After School Clubs

After school clubs can provide pupils with a suitable nutritious snack and reduces the likelihood of high fat, sugar or salt item consumption after school.

**Chartwells
PROMISE**

Chartwells complies with this set of standards and takes the serving and nutritious quality of these food items just as seriously as during the lunch service.

1.3 The School's Caterer meets Public Health England nutrient targets and falls in line with up to date nutrition criteria

As the UK's market leading caterer in education, Chartwells have a responsibility to help solve the public health challenges that the UK faces today. Data from the National Diet and Nutrition Survey show that although children should get no more than **5%** of calories from sugar, **87%** of children exceed that limit.

In 2016, Chartwells set a challenging, yet achievable target to reduce the sugar content of menus by **20%** by 2020. Since baseline, Chartwells have achieved this and reduced the total sugar content in primary school menus by **22%** and **30%** in secondary schools, largely through recipe reformulation, portion size guidelines and setting a strict sugar criterion for new recipes. (See Appendix 2 and 3).

Making these improvements to recipes has allowed Chartwells to offer a healthier dessert line (**33%** less sugar in Primary, **30%** less in Secondary) to pupils and support the government's recommendations for sugar reduction.

**Chartwells
PROMISE**

Chartwells also monitor closely for fat, salt and calories and will be working in line with Public Health England recommendations moving forward.

Sugar figures correct as of Spring/Summer Menu Series 2020

I.4 The School's Caterer attains external recognition for school menus and achievements beyond the kitchen

Chartwells have worked extremely hard to develop tasty complaint menus and support schools' healthy eating curriculums through their educational programmes offered. As a result, Chartwells teams have achieved several externally recognised awards!

Primary and Secondary

Chartwells Food Development team won Contract Caterer of the Year at the EDUcatering awards, 2019. These awards recognise the outstanding teams who have excelled within the school meals sector, making a true difference to school meals and the health and happiness of children within the UK.

Additionally, Beyond the Chartwells Kitchen, a programme which offers 6 educational modules focused around nutrition, health and wellbeing for pupils was highly commended for the Health & Vitality Honours Award in January 2020.

Secondary

Chartwells 'Nudge Nudge' programme is based on a piece of research commissioned by Compass Group, which highlighted that nudges and psychology of behavioural change can be used to influence what people choose. The research evidenced that the key to success with 'nudges' is to be subtle and to allow pupils to subconsciously make their own healthier choices.

Heart shaped stickers on menus, pre-packed items and product placement of healthier food items on Chartwells secondary menus has shown to result in healthier choices by students. 'Nudge Nudge' has received the Health and Vitality in Education Honours Award and the Nan Berger Award at the LACA UK Conference, 2019. This award recognises exemplary work in the field of innovation, leading to a successful result in driving meal uptake and raising the profile of the school catering service.

Chartwells will continue to provide the best educational programmes and menus to your schools and be an award winning business within the industry.

1.5 The School and its Caterer manages allergens and medical diets safely

1.5a The School's Caterer will comply with the provision of food information to consumers, managing allergens safely from the school kitchen

The **Food Information for Consumers Regulation (FIR) 1169/2014** came into effect in 2014 making it a legal requirement to provide allergen information for all food bought and/or consumed in and out of the home environment. Chartwells meet FIR standards through the use of the unit 'Allergen Folder', which contains allergen reports for the recipes being served. The school will ensure its staff are aware of where to obtain this allergen information when it is required to support a pupil.

1.5b Catering for Medical Diets

Medical diets are an extremely important part of the schools' catering provision. At Chartwells we have a dedicated Medical Diets Team who support all medical diet queries and requests whether it be alleviating parent concerns or creating bespoke menus for single or multiple allergens. The medical diets team are available all year round to support our catering teams and pupils to eat safely and enjoy a Chartwells school meal where possible.

Jessica Crane (Chartwells, Head of Technical & Training)

Stephanie Hall (Chartwells, Head of Medical Diets)

Sukaina Abdulhussain
(Medical Diets Nutritionist)

Megan Gibbins
(Medical Diets Nutritionist)

Emily Vincent
(Medical Diets Nutritionist)

A medical diet is required when the choices offered on the main menu or packed lunch are unsuitable due to an individual's medically diagnosed food allergy or intolerance. Pupils that require a medical diet must complete the Chartwells Medical Diet Request Form in full and submit with supporting evidence. Lifestyle choices such as vegetarianism and religious diets are not defined as medical diets, as Chartwells are confident the main menu offers a variety of different foods to cater for these needs.

All clients with pupils that have a Chartwells Medical Diet menu must have a system in place for the identification of those pupils at food service points. Chartwells clients must use Chartwells medical diet lanyards for such identification, unless an alternative, established and approved client system is already in place.

1.5c Medical Diet Policy and Training for Kitchen Teams

Chartwells have a robust medical diet policy, responsibilities and promises in place (Appendix 4) which are in line with the LACA National Allergen Management Policy guidance. Our policy ensures the safety of our customers is our number one priority whilst maintaining complete transparency with all involved.

Chartwells medical diets team also delivers a national 'Allergy Academy' roadshow, available to all kitchen managers across the UK. This mandatory training includes the **School Food Standards**, the **Food Information Regulations** and **Allergen Awareness** around food preparation and food service throughout the school day.

Chartwells will continually train kitchen teams through e-learning techniques, bitesize unit-led modules and live allergy academy training sessions which are developed and delivered by a medical diet nutritionist. All kitchen units comply with the Chartwells 'Unit Guide to Managing Allergens', which stipulates the medical diet policy. The Chartwells 'Are you Allergen Aware?' health and safety campaigns serve to further underline Chartwells allergen management procedures. These campaigns include Food Safety information, training resources and awareness posters for kitchen teams, pupils and school staff.

1.6 The School and its Caterer will include work associated with healthy balanced diets in its curriculum

Health & Wellbeing; as part of the curriculum

Chartwells are not only fully compliant with nutritional guidelines and legislation but are proud to go above and beyond nutritional boundaries to ensure they are the market leaders in health & wellbeing.

Chartwells have implemented their own 2020 Health & Wellbeing and sustainability strategies with key commitments to pupils to promote healthier food, healthier futures and healthier lives. This includes objectives such as sugar reduction, promoting healthy hydration, meat-free Mondays and other plant forward strategies. Additionally, Chartwells recognise that providing nutritious food is not enough to ensure pupils are making the right choices at the counter. In 2018, Chartwells launched **Beyond the Chartwells Kitchen**, an educational programme which helps pupils to build a personal toolkit of knowledge, skills and inspiration – which we believe are the key ingredients for happier healthier futures (Appendix 5).

This programme offers 6 modules made up of interactive age appropriate workshops which focus around Personal, Social & Health Education (PSHE), life skills and other curricular objectives.

Chartwells have nutritionists, chefs and food ambassadors on hand to deliver these workshops. In addition to the physical support Chartwells can bring to your school, there is also a live online website, which your schools have access to, and provides an in-depth programme overview, information on 'How to Book' sessions, and an invaluable teacher zone full of resources to support the healthy eating curriculum! For more information on Beyond the Chartwells Kitchen, please contact a member of the Nutrition Team.

1.7 The School and its Caterer will extend support to parents by educating them on healthy eating principles

Health & Wellbeing; Chartwells Food Ambassadors Support

Schools, in partnership with Chartwells have an important role to play in defining habits and supporting pupils to make healthier choices. Chartwells can extend support to parents through their nutrition and food ambassador teams. These teams are on hand to;

- Deliver nutrition education sessions; parents' evenings, assemblies & classroom workshops
- Deliver school menu tasters for pupils and parents
- Interact with parents and pupils in the playground, using pop up stands
- Provide parents with educational resources and flyers, including what to include in a balanced packed lunch (Appendix 6)
- Support school lunch theme days and invite parents in for lunch
- Encourage children to sign up for a nutritious school lunch, saving parents time & money

A Note for Headteachers

We are excited about continuing the journey to support the health & wellbeing of your pupils in your school. Please use this document as evidence for meeting several criteria on the Department for Education's Healthy Schools Rating Scheme (Appendix 7). This was designed to enable the school to partner ever closer with the onsite Chartwells catering teams, supporting pupils, parents and the wider community.

Healthy Schools Rating Scheme; how to participate

To participate in the survey, schools should contact their local partnerships representative, who coordinates the survey for schools in their local areas. Please visit <https://www.gov.uk/government/publications/healthy-schools-rating-scheme> for more information!

Upon completion, each school will receive a bespoke report summarising their results from the survey. This report will cover children's activity levels, physical literacy, swimming proficiency, wellbeing, self-efficacy, and levels of social trust, as well as their healthy schools rating. This will indicate whether the school has achieved Gold, Silver, Bronze, or no award and a link will be provided to enable a certificate download.

A final note from Chartwells...

Thank you for working with us. If you have any questions, please contact your immediate Chartwells representative who can put you in touch with the right person.

Many thanks,

The Chartwell's Team

	No snacks, except nuts, seeds, vegetables and fruit with no added salt, sugar or fat <i>(applies across the whole school day)</i>			
	Savoury crackers or breadsticks can be served at lunch with fruit or vegetables or dairy food			
	No confectionery, chocolate and chocolate-coated products, <i>(applies across the whole school day)</i>			
	Desserts, cakes and biscuits are allowed at lunchtime. They must not contain any confectionery			
	Salt must not be available to add to food after it has been cooked			
	Any condiments limited to sachets or portions of no more than 10 grams or one teaspoonful.			
HEALTHIER DRINKS <i>applies across the whole school day</i>	Free, fresh drinking water at all times			
	The only drinks permitted are: <ul style="list-style-type: none"> • Plain water (still or carbonated) • Lower fat milk or lactose reduced milk • Fruit or vegetable juice (max 150mls) • Plain soya, rice or oat drinks enriched with calcium; plain fermented milk (e.g. yoghurt) drinks • Unsweetened combinations of fruit or vegetable juice with plain water (still or carbonated) • Combinations of fruit juice and lower fat milk or plain yoghurt, plain soya, rice or oat drinks enriched with calcium; cocoa and lower fat milk; flavoured lower fat milk • Tea, coffee, hot chocolate Combination drinks are limited to a portion size of 330mls. They may contain added vitamins or minerals, but no more than 5% added sugars or honey or 150mls fruit juice. Fruit juice combination drinks must be at least 45% fruit juice			

It is expected that schools will use these checklists in combination with the nutrition criteria of the Government Buying Standards for Food and Catering Services.

SUGAR REDUCTION

THE STORY — SO FAR —

With 1 in 3 children deemed overweight or obese by the time they leave Primary School, it is more important than ever that we promote healthy eating habits in our children and play our part through nutrition education and the menus we serve our young customers.

Today, children are consuming far too much sugar, with half of this intake being from soft drinks and unhealthy snacks, such as cakes and biscuits.

A year before the Public Health England 20% reduction by the 2020 deadline, Chartwells have reduced the total sugars of their Primary School menu by 22% and dessert recipe book by over 30%! This has been achieved by;

- Reformulation of popular recipes to reduce total sugar content
- Reduction in portion sizes of high sugar items staying within the school food standards portion guidelines
- Working with suppliers to reduce sugar content in ingredients
- Analysing menus year on year to ensure reduced sugar content
- Increasing the number of fruit-based desserts on the menu
- Raising awareness of sugar consumption through a range of nutrition education initiatives

Chartwells have exceeded a 20% sugar reduction before Public Health England's deadline of 2020 with the launch of their Autumn Winter 2019 menu. It hasn't stopped there... Chartwells continue to work towards a healthier menu as part of their 2020 Health and Wellbeing Strategy.

Chartwells' pledge to reduce the sugar in children's diets doesn't end there! Our very own nutrition team are on hand to deliver nutrition education around the dangers of a high sugar intake and those hidden in our popular foods and drinks! For any further enquiries or bookings, please contact nutrition@compass-group.co.uk

SUGAR REDUCTION

THE STORY — SO FAR —

With teenagers consuming almost three times the recommended amount of sugar, it is more important than ever that we promote healthy eating habits in our children and play our part through nutrition education and the menus we serve our young customers.

Today, children are consuming far too much sugar, with half of this intake being from soft drinks and unhealthy snacks, such as cakes and biscuits.

A year before the Public Health England 20% reduction by the 2020 deadline, Chartwells have reduced the total sugars of their Secondary school dessert recipe book by 30%! This has been achieved by;

- Reformulation of popular recipes to reduce total sugar content
- Ensuring all new developments meet public health England guidelines for sugar
- Reduction in portion sizes of high sugar items staying within the school food standards portion guidelines
- Working with suppliers to reduce sugar content in ingredients
- Analysing menus year on year to ensure reduced sugar content
- Increasing the number of fruit-based desserts on the menu
- Raising awareness of sugar consumption through a range of nutrition education initiatives

Chartwells have exceeded a 20% sugar reduction before Public Health England's deadline of 2020 with the launch of their Autumn Winter 2019 menu. It hasn't stopped there... Chartwells continue to work towards a healthier menu as part of their 2020 Health and Wellbeing Strategy.

Chartwells' pledge to reduce the sugar in children's diets doesn't end there! Our nutrition team are on hand to deliver nutrition education around the dangers of a high sugar intake and those hidden in our popular foods and drinks! Medical Diets Responsibility Promise

Chartwells
EAT LEARN LIVE

With approximately **20% of the UK population** affected by an allergy, allergies must remain at the top of everyone's agenda; at Chartwells, the safety of the pupils we cater for is our number one priority. We understand the importance of ensuring that pupils with medical diets can continue to enjoy a safe, balanced meal alongside their peers in school. As such, the Chartwells medical diet policy has been developed specifically for the school kitchen environment and enables us to cater to as many children as possible, as safely as possible.

Chartwells commitments to you...

In this Medical Diets Responsibility Promise, we outline Chartwells commitments to you, our schools, to support the safeguarding of pupils with medical dietary requirements.

To ensure the highest safety standards from Chartwells' kitchen to your pupil's plates, however, it is vital that both schools and Chartwells work in strong partnership. In this responsibility promise we therefore also outline the commitments we would like schools to make in partnership with us. Information about how Chartwells can support you with each safeguarding responsibility is also given, strengthening our collaboration so we can work safely together every step of the way.

Working Safely Together – Chartwells Commitments

Medical Diets Team

Chartwells' dedicated Medical Diet Team are available full time to support schools, parents & pupils to manage their medical diet safely at school.

Robust Medical Diet Policy

Chartwells' medical diet policy is readily accessible online for all schools, pupils and parents at <https://loveschoolmeals.co.uk/medical-diets>. Alternatively, your local Chartwells representative can provide a copy.

Chartwells' policy is designed to support schools to safeguard their pupils with medical diets as thoroughly as possible and has been fully reviewed by an external allergen specialist lawyer accordingly.

Supported Medical Diet menus

For pupils with confirmed medical diets, Chartwells can offer full support with adapted and managed menus. Medical Diet Menus are prepared and double-checked by our Medical Diet team in line with the Chartwells Medical Diet Policy.

Allergen Information

Allergy Reports are available for every Chartwells recipe, in line with Food Information Regulations (FIR).

Rigorous Training

Continual Health & Safety training, covering food safety, allergen awareness and our medical diet policy, is delivered to Chartwells staff to a level appropriate for their role.

Raised Allergen Awareness

Regular Health & Safety campaigns and initiatives, such as 'Ask About Allergens' information posters, keep allergens at the top of everyone's agenda.

Pre-service briefing

Chartwells' kitchen teams are briefed on the menu and any required medical diet management before every service.

Supported Recipes

Every dish will comply to Chartwells ingredient and recipe standards.

Auditing

Repeated internal audits conducted by Chartwells Operations, Health & Safety and Nutrition teams ensure compliance to applicable policies.

HACCP Compliant Kitchens

All HACCP training and checklists complete.

Working Safely Together - School's Responsibilities

The Commitment

School's Responsibility

How Chartwells Can Support You

Medical Diet Policy

Schools must ensure customers, including new starters, are made aware of Chartwells' medical diet policy and direct them to Chartwells medical diet request process, as required.

Chartwells Policy available online at <https://loveschoolmeals.co.uk/medical-diets> or from your local Chartwells representative.

Request Form

Schools must support pupils and parents/guardians seeking medical diet support from Chartwells to complete the Chartwells Medical Diet Request form in full.

Please find our Request Form online at <https://loveschoolmeals.co.uk/medical-diets>. For any queries on its completion, please contact the Chartwells Medical Diet team at chartwells.medicaldiets@compass-group.co.uk or your local Chartwells representative, who will be happy to help.

Risk Assessment

Schools must explain to their pupils and parents/guardians that all requests for medical diet assistance will be thoroughly risk-assessed on a case-by-case basis and that, where the risk to the customer is high, Chartwells may be unable to provide a medical diet in order to protect the pupil's safety.

Chartwells will make all reasonable steps to provide for a medical diet providing the risk assessment indicates that the risks are within safe limits. Chartwells will notify the school and the customer, without delay, of the result of any assessment where the risk is so high that a medical diet cannot be provided. The Chartwells Medical Diet team are available full time at chartwells.medicaldiets@compass-group.co.uk to support in the case of any queries.

Medical Evidence

For safeguarding purposes, schools must support pupils and parents/guardians to provide professional medical evidence to accompany a medical diet request form.

Please find details of Chartwells' medical evidence requirements in our medical diet policy (section 4.3) online at: <https://loveschoolmeals.co.uk/medical-diets>. For those who need support obtaining professional medical evidence, our Medical Diet Evidence Support Form is available online at <https://loveschoolmeals.co.uk/medical-diets>.

Identification

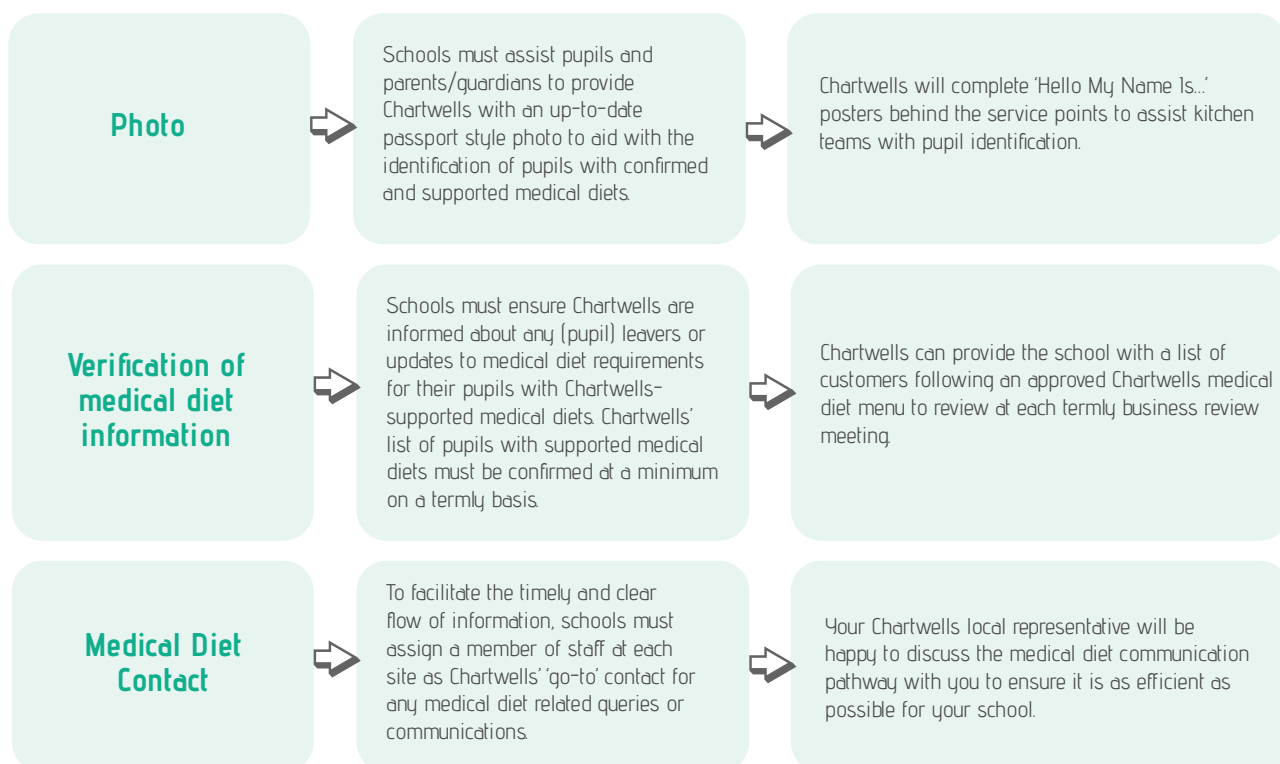

To reduce risks at food service times, schools must operate an approved and documented identification system to support kitchen staff in identifying pupils with supported medical diets. The Chartwells endorsed identification system is lanyards.

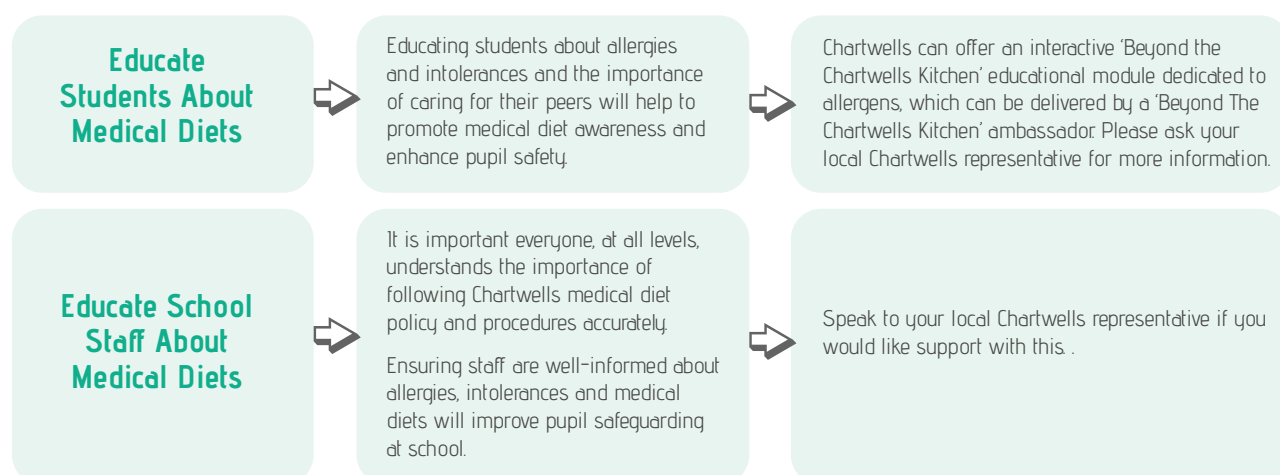

Chartwells child-friendly medical diet lanyards are available. Your local Chartwells representative will be happy to discuss the implementation of lanyards in your school. Chartwells will complete the Lanyard Identification System Agreement Form with you, to ensure the system is clear and managed safely in your unique school environment.

CHARTWELLS HOME PACKED LUNCH GUIDE

DO YOU WANT TO **SAVE YOURSELF SOME TIME?**

Chartwells offer hot meals or a varied packed lunch option, which is already compliant to the School Food Standards.

ORDER TODAY!

Healthy eating is all about a balance! Let's consider the Eatwell Guide when making a packed lunch!

THIS PACKED LUNCH GUIDE IS **NUTRITIONIST APPROVED**

eatwell guide

DID YOU KNOW?

Only 1.6% of packed lunches from home meet the nutritional standards, whereas school meals do!

WHAT MAKES A HEALTHY PACKED LUNCH?

- FRUIT & VEG (at least 2 portions per lunchbox)
- CARBOHYDRATE (at least 1 portion per lunchbox)
- BEANS, PULSES, FISH, EGGS, MEAT & OTHER PROTEINS (at least 1 portion per lunchbox)
- OILY FISH (at least 1 portion every week)
- DAIRY (at least 1 portion per lunchbox)
- DRINK, ideally water (at least 1 per lunchbox)

TOP TIPS!

Fruit & Vegetables

These can be fresh, frozen or tinned, providing the necessary vitamins and minerals your child needs. Always remember a colourful, varied 5 a Day!

Dairy

Dairy (milk, cheese & yogurt) provide calcium, essential vitamins and extra protein to help build bones & teeth. Tofu and leafy greens also provide calcium.

Starchy Carbohydrates

These are your child's main energy source. Try to include skin on potatoes or brown varieties e.g. brown bread, brown pasta or rice for more fibre and B-vitamins!

Protein

Proteins are the building blocks of the body, helping your little one to grow! Try to include fish, including tuna and salmon (an oily fish!) at least twice weekly, opt for lean meat and don't forget plant proteins like beans, chickpeas or pulses count too!

ALWAYS REMEMBER TO CHECK THE LABELS!

Try to not include...

Salty snacks, confectionary or sugary drinks

These can result in rotten teeth, poorly tummies & reduced concentration

ENCOURAGING & ENABLING MORE CHILDREN TO ENJOY A HEALTHY BALANCED LUNCH

Chartwells; in line with the Healthy Schools Rating Scheme

A document designed to support your school in line with the Department for Education's Healthy Schools Rating Scheme, 2019.

Document's purpose; the why

In the UK one in three children aged 2-15 are overweight or obese by the time they leave primary school. This means in the average school classroom of 30 children, 10 are likely to be overweight or obese. We know that this can be associated with early onset conditions such as asthma, type 2 diabetes and liver problems during childhood. We also know that young people may experience bullying, low self-esteem and a lower quality of life compared to children of a healthy weight. It is more important than ever that schools, in partnership with Chartwells play a role in helping to improve the health of our pupils and give future generations the best possible start in life.

How?

Healthy Schools Rating Scheme (HSRS), 2019

Guidance for schools

In July 2019, the Department for Education released its healthy schools rating scheme (HSRS), designed to recognise and encourage schools' contributions to pupils health and wellbeing. Available to Primary and Secondary schools, schools will receive a rating based on their responses to the below 4 criteria;

Schools can achieve:

Bronze

Silver

Gold

...or no award based on the methodology provided by the Department for Education.

All participating schools will be encouraged to reflect on their future actions, and to share the schools achievements with parents, pupils and the wider school community.

Chartwells, the leading contract caterer for schools aims to support schools in achieving a **Gold Standard** rating on the HSRS. To achieve Gold, schools will be required to work in partnership with Chartwells and drive the non-food related criterias in school.

Wishing you all the best as you 'go for gold' and we look forward to supporting you!

Good News! Below you will see how Chartwells can support your school in meeting the HSRS criteria...

Key: P = Primary S = Secondary		
Chartwells meet HSRS Criteria		
Partnership between the school and Chartwells		
School's responsibility; non-food related
